

"How Can We Heal The Heartache" (The Chosen Ones) by
Karen Harris, Poete

3,000 or more innocents were killed on September 11,
2001 almost two years after a new century had begun.

What really happened?

Can this be prevented from happening ever again?

How can we make our cities and relationships safe again?

How did I feel when I learned that one person I knew - a
beautiful, talented, young actress and singer, "Katherine"
accepted a one day 3 hour temp job on the 102nd floor in
the first twin tower - which got demolished in seconds? !
This beauty, Katherine was fatally snuffed out - like a flame
of a sacred holy candle.

She didn't have a chance to breathe one more divine
breath nor could she yell or run or call her mother
And speak "I love yous."

Why was she singled out and why were 3,000 other
innocents chosen to die?

How can we heal our broken hearts?

Let us all pray for a deep, global healthy healing
transformation now.

Amen, Agirl, an end.
